1. ABOUT THE COMPANY

Donata Projects (Pty) Ltd is a dynamic and growing multi-sector company founded in 2016 with a clear mission: to deliver high-quality infrastructure that supports communities and drives development across South Africa.

Since its establishment, the company has built a strong reputation for reliability, professionalism, and excellence in execution. From residential homes to large-scale commercial developments and government infrastructure projects, Donata Projects is committed to transforming ideas into durable, functional, and aesthetically pleasing structures.

In January 2026, Donata Projects formally expanded its operations into the transportation and logistics sector. This strategic move strengthens the company's ability to support construction operations while delivering reliable logistics solutions — including bulk commodity haulage — to external clients in the mining and industrial sectors.

This expansion positions Donata Projects as a fully integrated, multi-sector company capable of delivering end-to-end project support — from ground-breaking to final delivery.

3. CEO MESSAGE

A Message from Our Founder

As the Founder of Donata Projects (Pty) Ltd, I built this establishment with a singular purpose: to better the lives of South Africans — not only in the present, but for generations to come.

This company is my heart and soul. It was built on the belief that infrastructure is the backbone of community development, and that every project we deliver — whether a road, a building, or a logistics solution — contributes to a stronger, more functional South Africa.

Donata Projects exists to serve the people of South Africa. We live to deliver top-tier services and to help create a country that works — one project at a time. We will continue to grow, adapt, and lead with integrity for many years to come.

— *Ruth Xulu, CEO & Founder*

4. MISSION & VISION

Mission

To deliver durable, cost-effective, and high-quality construction and logistics solutions that meet client specifications and contribute to the economic growth and development of South Africa.

Vision

To be one of the leading providers of safe, reliable, and high-impact construction and transportation services in South Africa — building communities, creating opportunities, and delivering lasting value.

5. CORE VALUES

Integrity	We operate with honesty and transparency in all our dealings.
Quality	We never compromise on standards — every project reflects our commitment to excellence.
Reliability	We deliver on time and within scope, every time.
Innovation	We embrace growth and forward-thinking solutions to complex challenges.
Community Development	We build with purpose and lasting impact for South African communities.

6. SERVICES

CONSTRUCTION • General Building • Civil Engineering • Electrical Engineering Works • Mechanical Engineering • Road Construction • Property Development	TRANSPORTATION & LOGISTICS • Material & bulk commodity haulage • Construction equipment hauling • General freight transportation • Project-based logistics solutions • Scheduled & contract transport • Site-to-site material distribution
--	--

7. HOW WE WORK

Construction Process

Step 1 — Planning & Design:

Together with the client, we draw up a project design aligned to certification standards. The drawing up of detailed plans is the foundation of any successful construction project.

Step 2 — Procurement & Construction:

Labour, equipment, and materials are finalised. Critical organisation, stakeholder communication, and quality control are maintained throughout the construction phase.

Step 3 — Completion & Inspection:

Upon project completion, we facilitate inspection by qualified architects, engineers, and relevant government officials to confirm compliance and sign-off.

Transportation & Logistics Process

Logistics Services:

- Transportation of building materials (sand, stone, cement, bricks, steel, etc.)
- Bulk haulage of coal, magnetite, and other commodities
- Heavy equipment and machinery transport
- General freight transportation
- Site-to-site material distribution
- Project-based logistics coordination
- Scheduled and contract transport services

Fleet & Operational Capability:

Donata Projects operates a growing fleet suited for construction-related and general cargo transportation. Our logistics operations are structured to ensure:

- Efficient route planning and dispatch management
- On-time delivery performance
- Proper cargo handling and load security
- Vehicle maintenance and compliance checks
- Fuel management and operational efficiency
- GPS tracking and monitoring (where applicable)

Safety & Compliance:

- Full adherence to road traffic regulations
- Licensed and trained professional drivers
- Load control and safety procedures
- Preventative fleet maintenance programmes

- Risk management and incident reporting systems

8. MEET THE TEAM

Ruth Xulu

Chief Executive Officer

As the CEO, Ruth oversees all projects procured by the company and she is responsible for the overall success of the organization, guiding its strategic direction, and making high-level decisions that affect the company's operations, culture, and financial health.

Makopi Maponya

Chief Operating Officer

Makopi oversees the progression of all active projects. She handles day-to-day operations, ensuring projects are delivered efficiently and to specification.

9. OUR PROJECTS

Transportation of Coal	Client-based bulk commodity transportation services for major mining clients.
Eskom Renovation	Renovation and maintenance of residential units for Eskom/Rotek Industries.
RDP Housing	Construction of over 100 RDP housing units across the North West and Limpopo regions.
Residential Design Project	Design and development of residential spaces in the Ballito and Johannesburg North areas.
Road Construction	End-to-end planning, design, and building of transportation infrastructure including municipal roads and access routes.
